The Team Behind the Technology

DLAN is engineered by Buffalo Computer Graphics, Inc. (BCG), a veteran owned Small Business that has over 30 years of experience in software, hardware, and systems engineering. Across our divisions, we build commercial off-the-shelf and custom solutions that set the standard in their industries. All of our engineering is done in house by our experienced and talented team. In addition to working closely with our customers to determine their exact needs, BCG prides itself on our ability to provide quick and expert support on all systems we have installed. Our core belief in developing relationships, not just selling products, sets us apart from our competitors.
