

# DisasterLAN

## EMERGENCY MANAGEMENT PACK

DLAN is a system built from the ground up by Emergency Managers for Emergency Managers. The Incident Command System (ICS) approach to emergency management is the framework for all areas of DLAN. The Emergency Management Pack is specifically designed for use by emergency managers and adds a robust set of emergency management tools.

Mobile Responder App

## The Team Behind the Technology

**Our Mission: To engineer superior products and offer outstanding service tailored to our customer's needs.**

DLAN is engineered by Buffalo Computer Graphics, Inc. (BCG), a veteran owned Small Business that has over 30 years of experience in software, hardware, and systems engineering. Across our divisions, we build commercial off-the-shelf and custom solutions that set the standard in their industries. All of our engineering is done in house by our experienced and talented team. In addition to working closely with our customers to determine their exact needs, BCG prides itself on our ability to provide quick and expert support on all systems we have installed. Our core belief in developing relationships, not just selling products, sets us apart from our competitors.
